

FURUTECH

PURE TRANSMISSION

High End Performance Connector & Cable Elevator **NCF Booster**

Multi-material Hybrid Construction – Furutech
Original Design

**---For the Ultimate Connector and Cable
Damping Solution**

Nano Crystal² Formula (NCF).

Incorporated into selected Furutech products, NCF features a special crystalline material that has two 'active' properties. First, it generates negative ions that eliminate static. Second, it converts thermal energy into far infrared. Furutech combines this remarkable material with nano-sized ceramic particles and carbon powder for their additional 'piezoelectric effect' damping properties. The resulting Nano Crystal² Formula is the ultimate electrical and mechanical damping material. Created by Furutech, it is found exclusively in Furutech products.

NCF Booster -----NCF Connector and Cable Elevator

Furutech Original Multi-Material Hybrid Construction --- For the Ultimate Connector and Cable Damping Solution

Damping support for connectors at components or wall outlets and damping support for cables between components – boosting cable and connector performance.

Features and Materials:

- Multi-material Hybrid Construction – Furutech Design
- Support unit: Audio grade ABS resin and NCF Nylon resin - eliminating static charge.
- Top restrain unit: Stainless block and Audio grade NCF Nylon resin
- Base unit: Audio grade ABS resin body with Slip-proof, shock-absorbing plate with counterweight.
- **Overall Dimensions: 94 x 99.7mm approx. Height: Base level- 80 mm /Extended level- 140 mm approx.**
- **Net Weight: Base level- 580 g / Extended level- 630 g approx.**

Construction and Materials:

No.	Parts names	Material
1	Shaft bar fixed screws	Coated black steel
2	Base Unit	Audio grade ABS resin body Coated black steel counterweight Silicon injected black steel plate
3	Shaft Bar	Ni-plated Brass
4	Support Fixed screws	Ni-plated Brass
5	Support Unit	Audio grade ABS resin & Audio grade NCF Nylon resin
6	Top Clamp Unit	Coated black stainless block Audio grade NCF Nylon resin
Accessories		
		Extension shaft bar (2 PCS)
		H2.5 Hex driver (1 PC)
		Silicone damping ring (2 PCS)
