PURE TRANSMISSION

Introducing Ethereal FT-212 Banana Terminals

***Premier Performance and
Legendary Build Quality***

The Furutech Ethereal FT-211(G)/(R) Banana Terminals

Furutech is known the world over for a huge variety of top-quality OEM parts and delivers consistently superior results by following Pure Transmission principles; examine every link in the power and signal path and ultimately optimize each and every element.

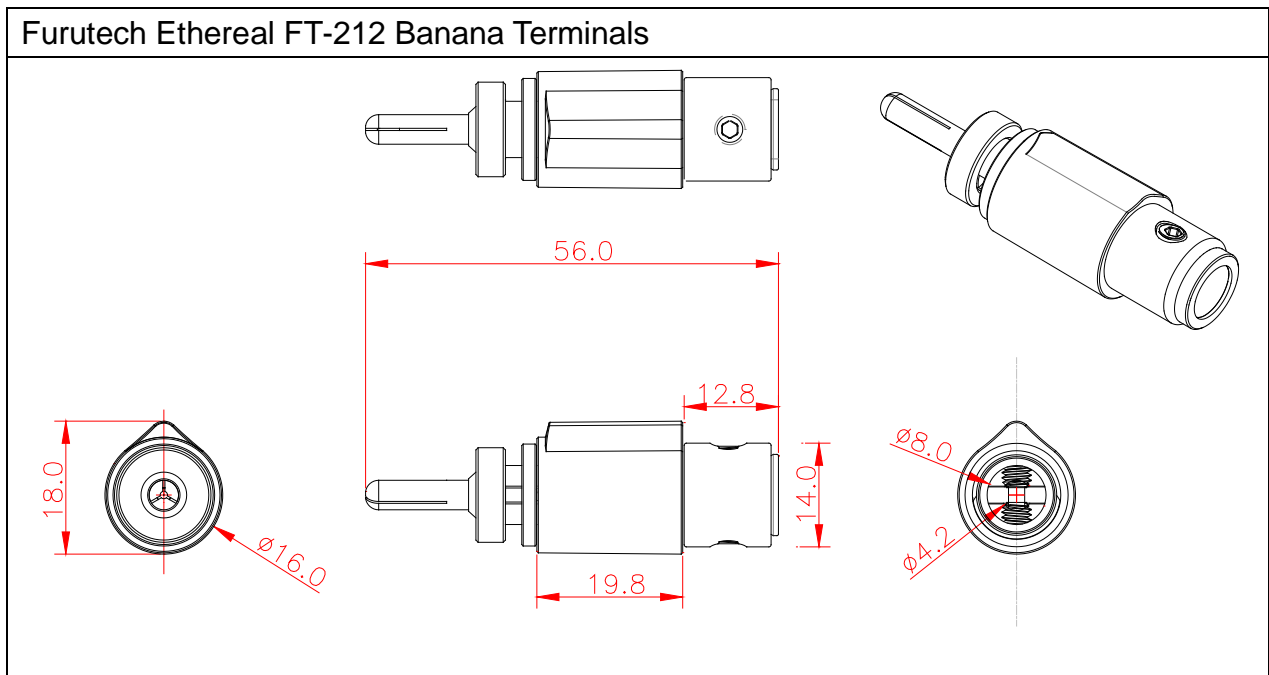

In highly-resolving audio systems EVERYTHING makes a difference. Low-mass, low-weight spade and banana speaker terminals have recently found favor with many audiophiles. Furutech's beautifully-finished, beautiful-sounding Ethereal Spade Terminals are the result of meticulous engineering and careful audition of various materials. The FT-211 features an α (Alpha) pure-copper conductor yielding minimal impedance. The conductor is housed in an extremely nonresonant POM resin body with a shell crafted of nylon and fiberglass using Furutech's outstanding Piezo Ceramic damping material. The pin locks feature a new patent-pending mechanism for a secure, reliable grip.

It's difficult to find better...

Features and Materials

- Main conductor: Rhodium or 24k gold-plated α (Alpha) pure copper wire
- Housing: Black nylon/fiberglass with Piezo Ceramic resin
- Body Insulation: Black resin-injected POM
- Termination: Set screw
- Specified for core diameters up to 4.2mm
- Specified for core insulation diameter up to 7.8mm
- End Ring: Stainless steel

Dimensions: Housing: 18.0 x 16.0 ϕ x 19.8mm overall height
Total overall length: 56.0 mm approx.
