Premier Performance and Legendary Build Quality*

Furutech FT-H800(R) Connector

Furutech makes a wide variety of OEM parts known the world over for their quality construction and superb sound. Our engineers examine every part of the signal and power path no matter how small and optimize each and every connection.

Take HD800 connectors:

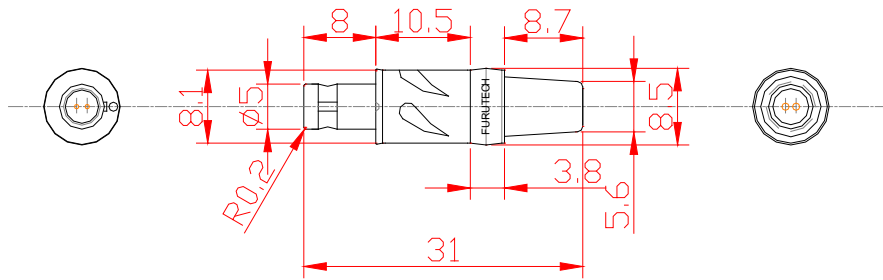

Furutech's beautifully finished, beautiful sounding FT-H800 connectors are the result of meticulous engineering and careful audition of various suitable materials. The FT-H800 features an α (Alpha) phosphor bronze conductor and Nylon+Fiberglass15% insulation for minimal impedance and a nonmagnetic stainless main body and end ring for superior damping.

Features and Materials

- Main conductor: Nonmagnetic Rhodium-plated α (Alpha) Phosphor bronze conductor
- Insulation with Nylon+Fiberglass15% Resin
- Main Body/End Ring: Nonmagnetic stainless.
- Fixed Tube: Copper Alloy.
- Specified for wire outer diameters up to 3.8mm
- Connections: Soldered

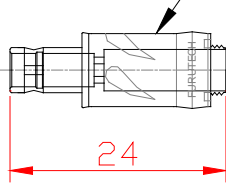

Dimensions: Main Body: 8.5^{ϕ} x 24.0mm overall length
Total overall length: 31.0 mm approx.
